Instructions for ATTACHMENT OSR

For wastes shipped offsite only.

Summarize your offsite shipments of hazardous wastes for the reporting year. This information must be obtained from, and accountable to, your hazardous waste manifest copies returned by the TSDR. You and your TSDR must reconcile any manifest differences and report only the mutually corrected amounts or else file manifest discrepancy reports. Document the reasons for any corrections by using TSDR analyses, actual weights from scale receipts, manifest changes, etc.
Complete one line for each combination of initial transporter and TSDR who handled a waste. If no shipments at all were initiated in 2000, write "No Shipments" in the DOT Shipping Name of line a and certify the report. If some wastes were shipped offsite, but others were not, omit those that were not shipped offsite.

COLUMN 1 Waste Stream Number or "FS"

Enter the source of the waste as the waste stream number from your Hazardous Waste Stream Report forms.   For mixtures, enter as many numbers as appropriate. If your are a Treatment Storage and Disposal Faciliy and the waste is being shipped directly from your RCRA permitted storage, enter "FS" (From Storage) .

COLUMN 2 DOT Shipping Name or Wastestream Name

Enter only one of either a descriptive waste name or the DOT shipping name. Enter each different waste or waste combination on a separate line. Enter various mixtures of the same constituent wastes on the same line unless the hazard characteristics of the resultant mixtures are different.

COLUMN 3 EPA Waste Codes

Enter the applicable hazardous waste code(s) which identifies the waste or combination of wastes. See Rules 1200-1-11-.02(3) and (4) for the EPA waste codes. (For example, F001, K001, D

COLUMN 4 Amount Shipped (in kilograms or pounds) YOU MUST DESIGNATE HOW YOU ARE REPORTING BY CHECKING KG   OR LBS

Enter the amount of wastes in kilograms or pounds that you shipped during the reporting year to the specified TSD facility by the specified transporter. Use the Total Quantity (Item 13) from the Manifest after converting it to kilograms or pounds. The weight reported should include the weight of the drum unless you know that the waste will be removed from the drum and the drum will not be handled as a hazardous waste. For generators, this amount should match the total of items 4a of the Waste Stream Reports that are included on this line. For TSDR's, it should match the lines on the Summary Report with the word "SHIPPED" in the handling column.

COLUMN 5 Number of Shipments

Enter the number of separately manifested shipments during the reporting year for each line completed.

COLUMN 6 Transporter ID Number

Enter the Installation Identification Number of the initial transporter (transporter 1 on the manifest) who picked up the waste. Enter only one number.

COLUMN 7 Destination TSDR ID Number

Enter the Installation Identification Number of the treatment, storage or disposal facility/destination facility to which the waste was shipped. Enter only one number.

COLUMN 8 TSDR Handling Codes

Enter the TSDR Handling Codes that most closely represent the techniques you contracted to be used at the facility that received this waste. Enter all codes that are applicable in the order of handling of the waste. Use only the TSDR Handling Codes and not the Waste Management Codes.

COLUMN 9 EPA Management Method

Enter the System Code that best represents the techniques you used to handle the waste through final disposition. Refer to the System Type Code Form.
